What is an
Oakwood?

Is it Academic?

Is it Vocational?

Mr. Jean D. Custis

Thirty-six years in education — twenty-nine in Plain Local. Industrial Arts teacher and Department Chairman; Adult Evening School Director.

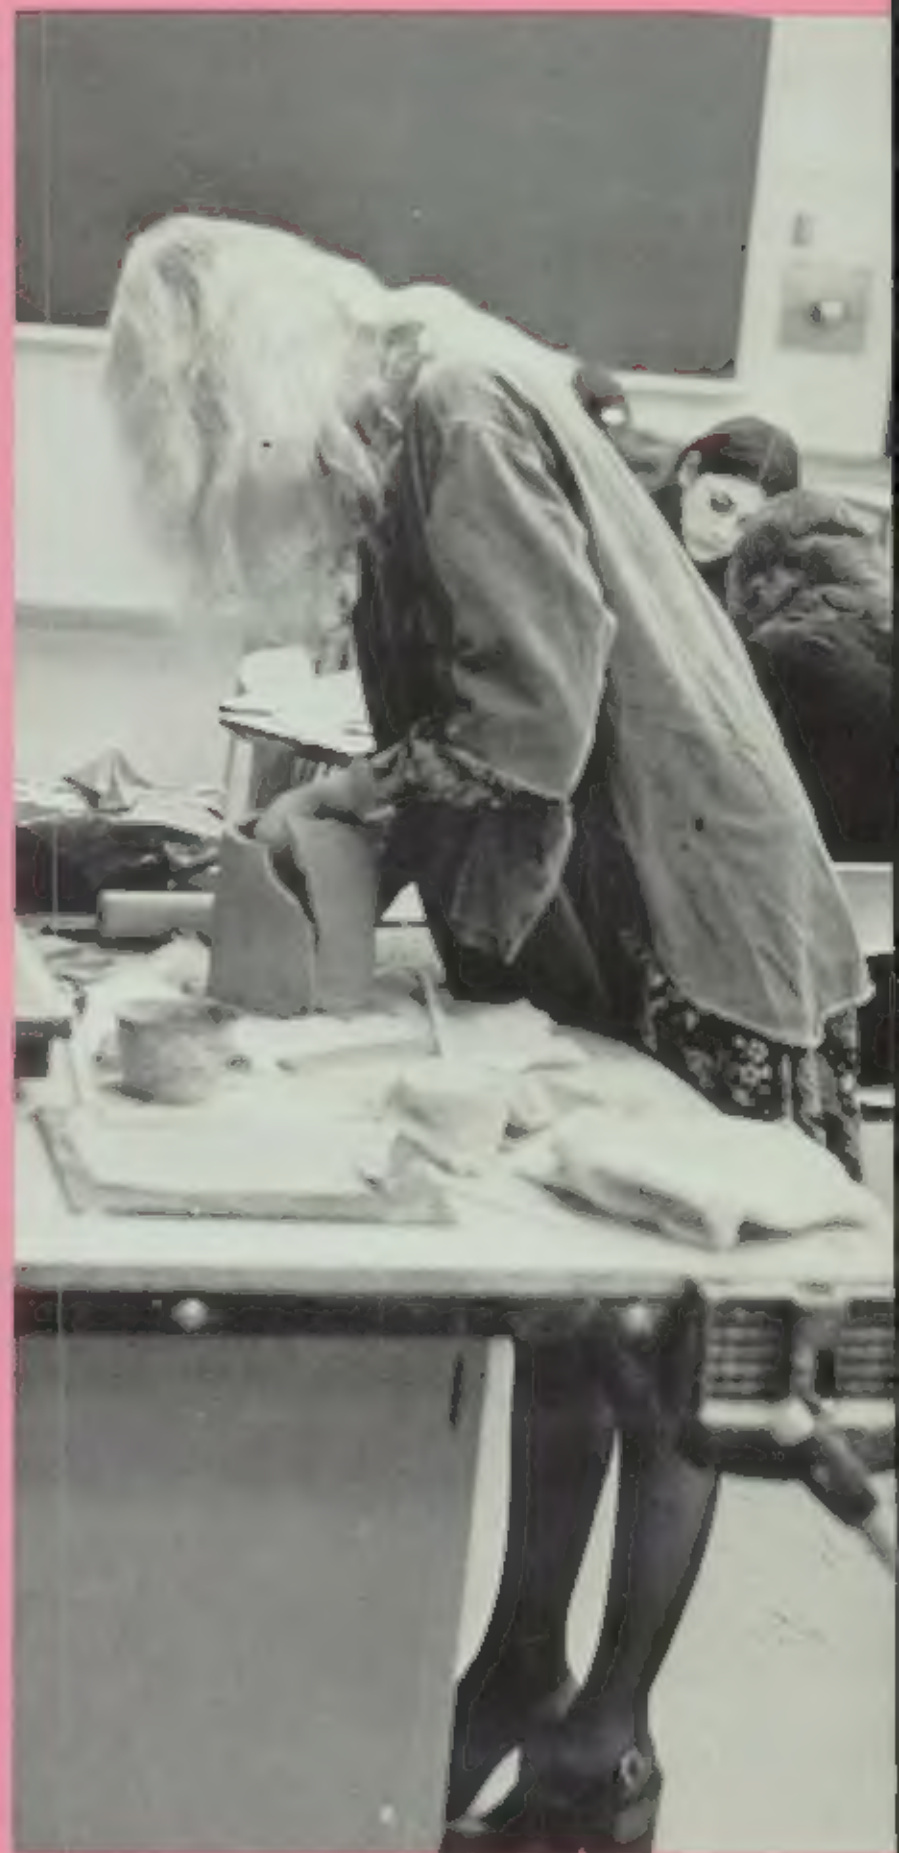

Organized and served as first Director of Plain Local's fine Vocational program.

Best characterized as an educator by thorough dedication to his work in helping young people grow in knowledge, confidence and a better understanding of the world of work.

On behalf of the yearbook staff, faculty and students of Oakwood High School, the 1973-74 Mithril is hereby dedicated to our friend and teacher, Jean D. Custis.

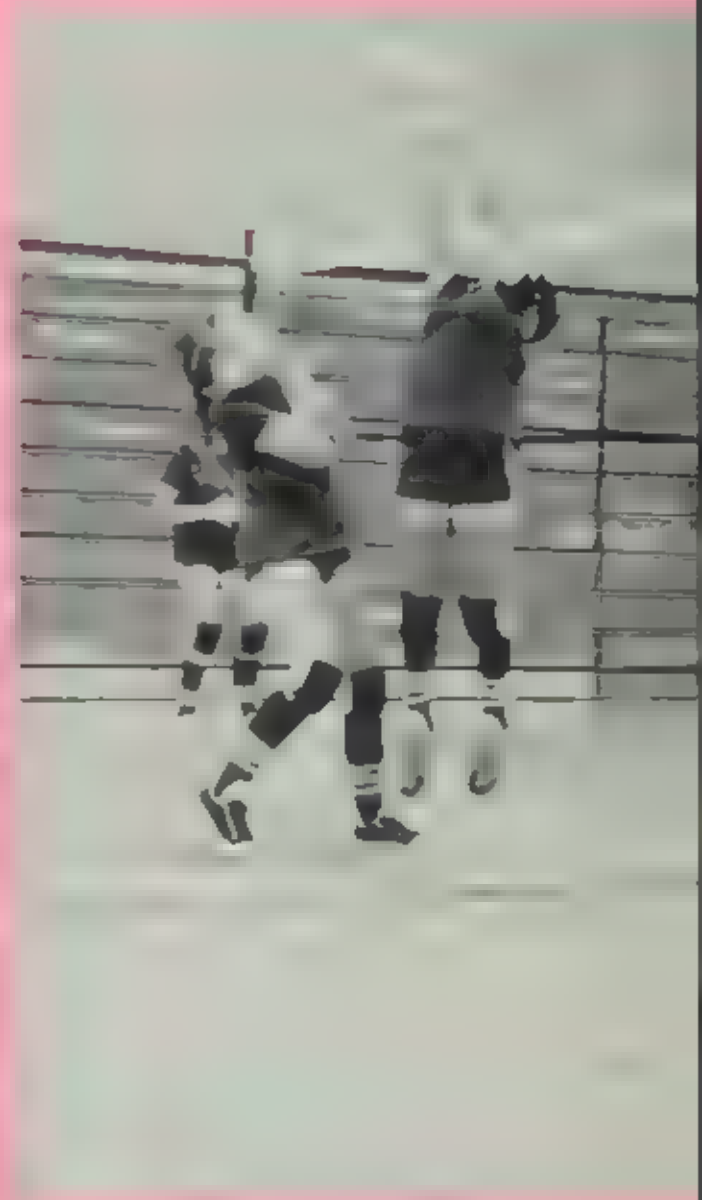

Is it Fine Arts?

or maybe its Sports?

Is it the Library . . . the Cafeteria

or is it a Pep Rally?

Its all of these and more . . .

We hope this Mithril will capture all the events that make Oakwood 1973-74 the Best Year Yet!

the best of Women's ed - but this is ridiculous

My daddy's golden eardrums beat Hoover

sometimes Mr Mease gets a little behind in his work

Maybe this is Day Seven?

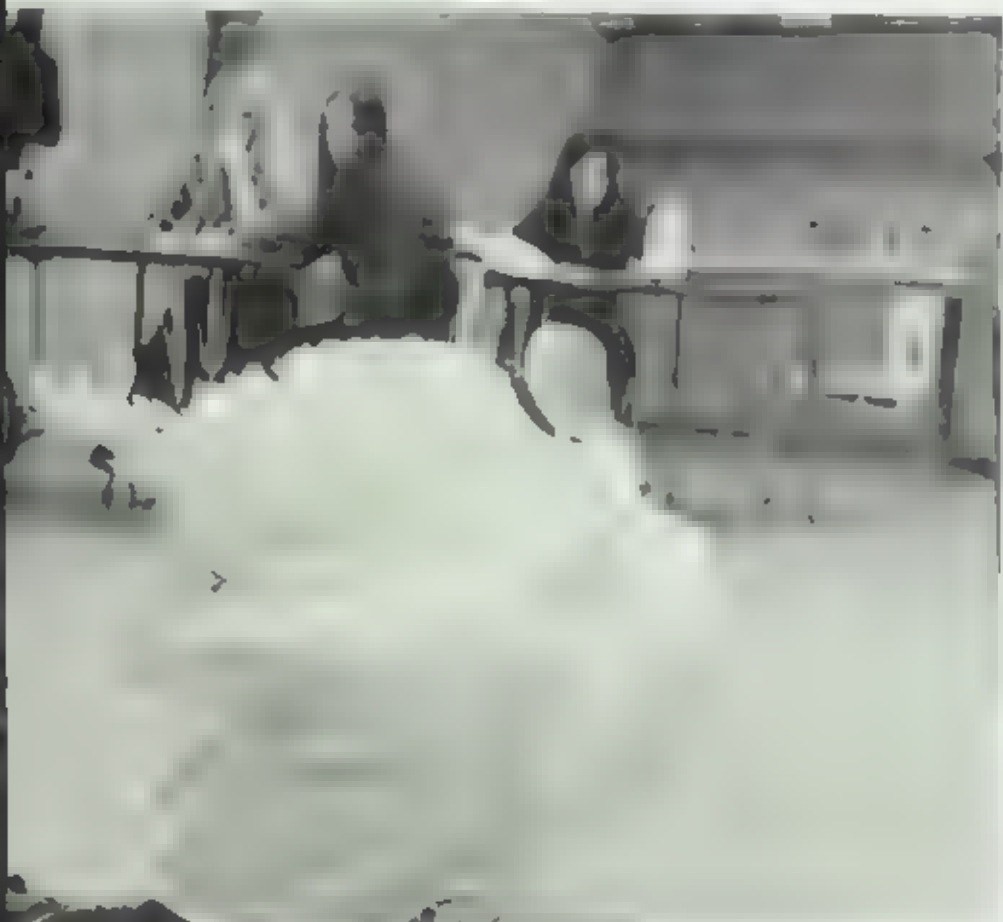

Once in a while we take time out for study

I'm sorry Mr. Stafford I'm bring my homework tomorrow I promise

This one speak the student

This is our exchange student from Turkey

She's pretty!

I wish she'd sit like a lady!

We missed the bus again

School starts so early in the morning this year, nobody has time to get dressed

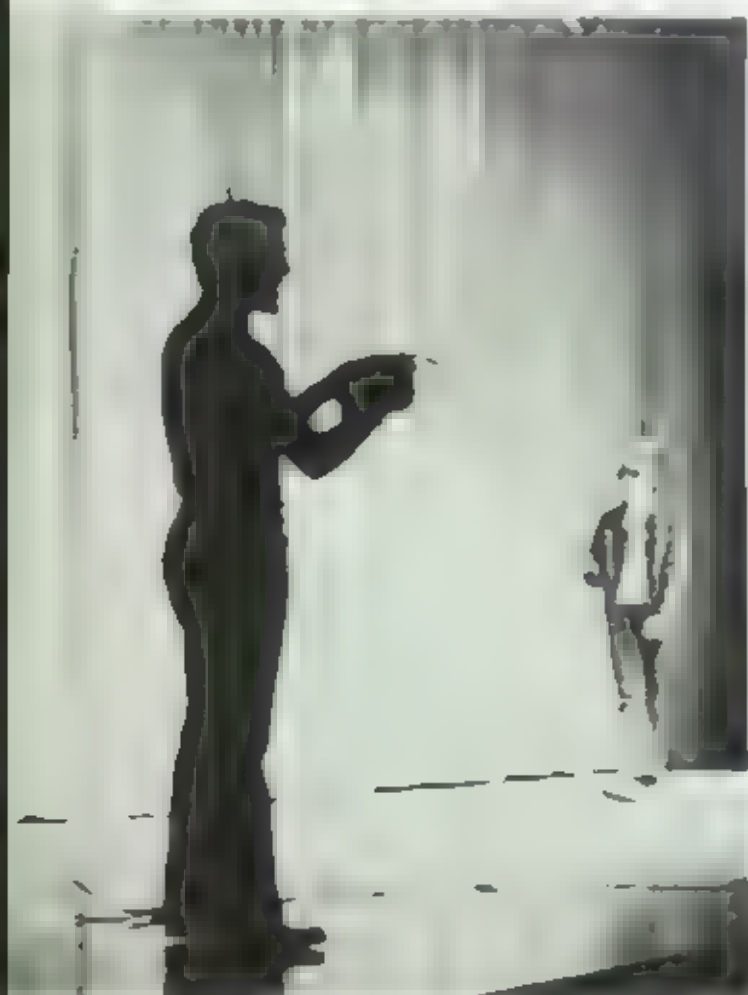

Oakwood has the best looking cheerleaders in town

Student Council is doing their job to make Oakwood a school of higher learning

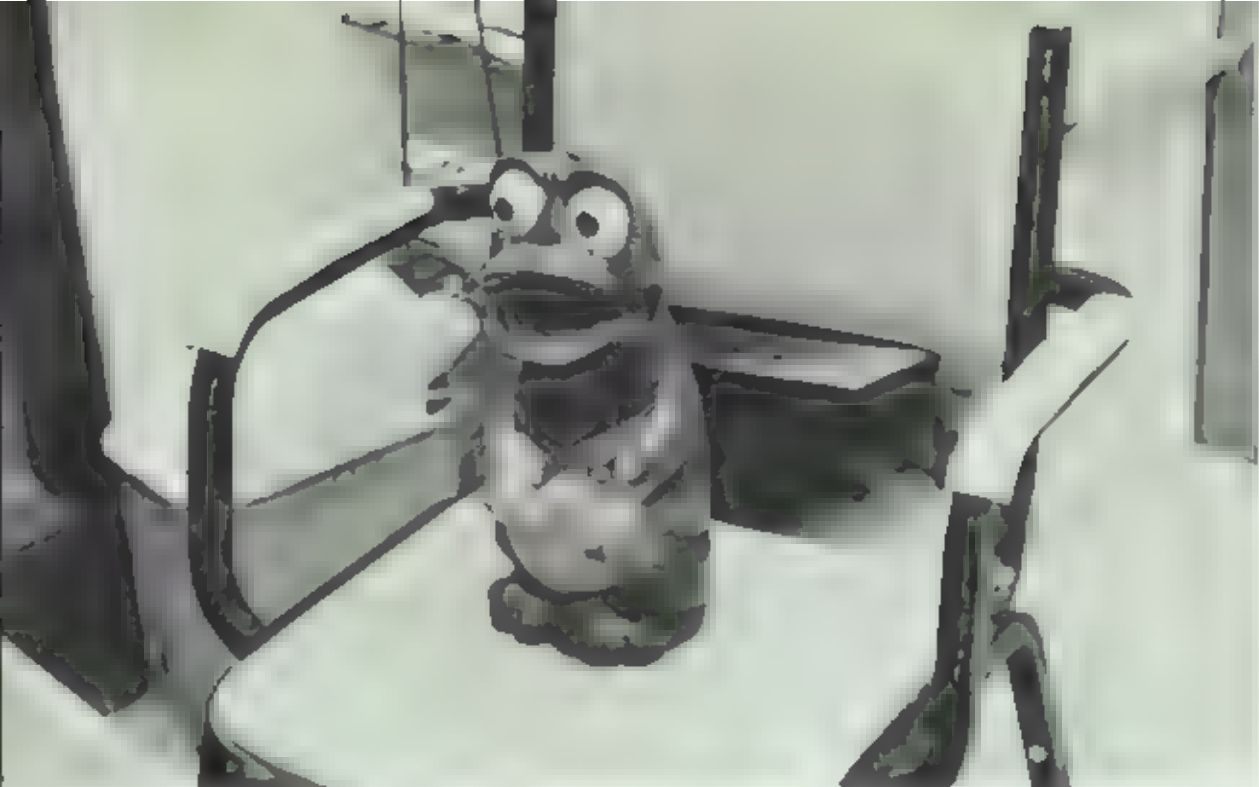

Everyone's a ham

Romeo Romeo where for art thou Romeo?

What a bunch of winners

A bright student. The lesson for today is

Oh yes they're having a few more parties today!

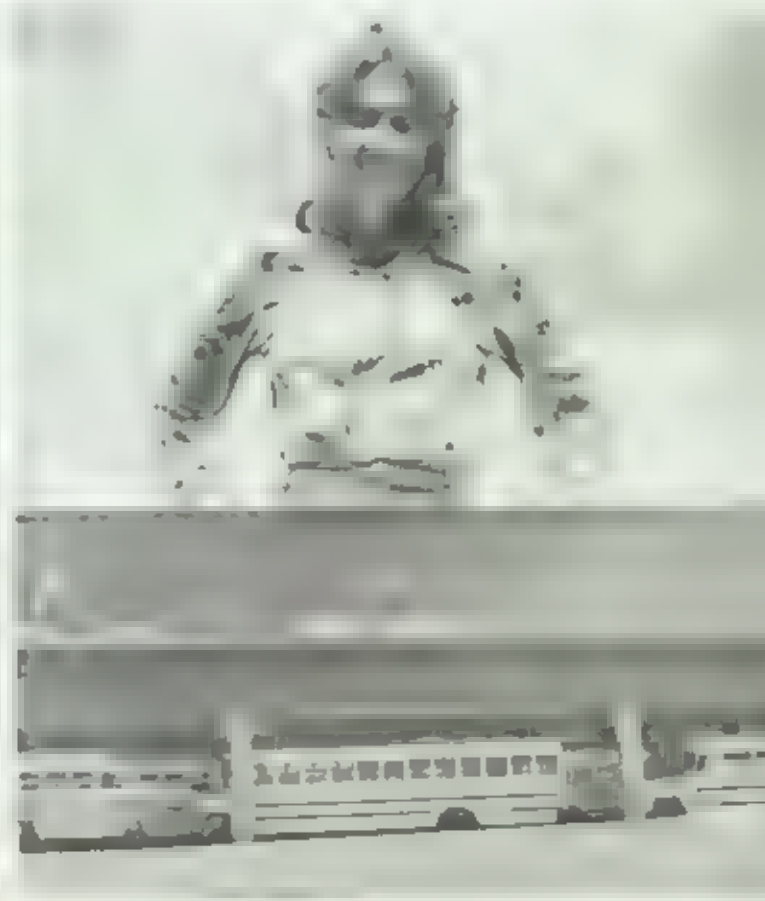

I guess that's the last we'll see of Mr. Gaume

So the old here today is for the young and it's still the same

OK Chris you put the alarm and I'll take the other way

Today Oakwood tomorrow the world!

All eyes focused on the overhead

And Oakwood produces yet another golden toe

The Oakwood faculty enjoys many things in the Oakroom: serenity, tranquility, and real food

Looks like senior's hit early this year

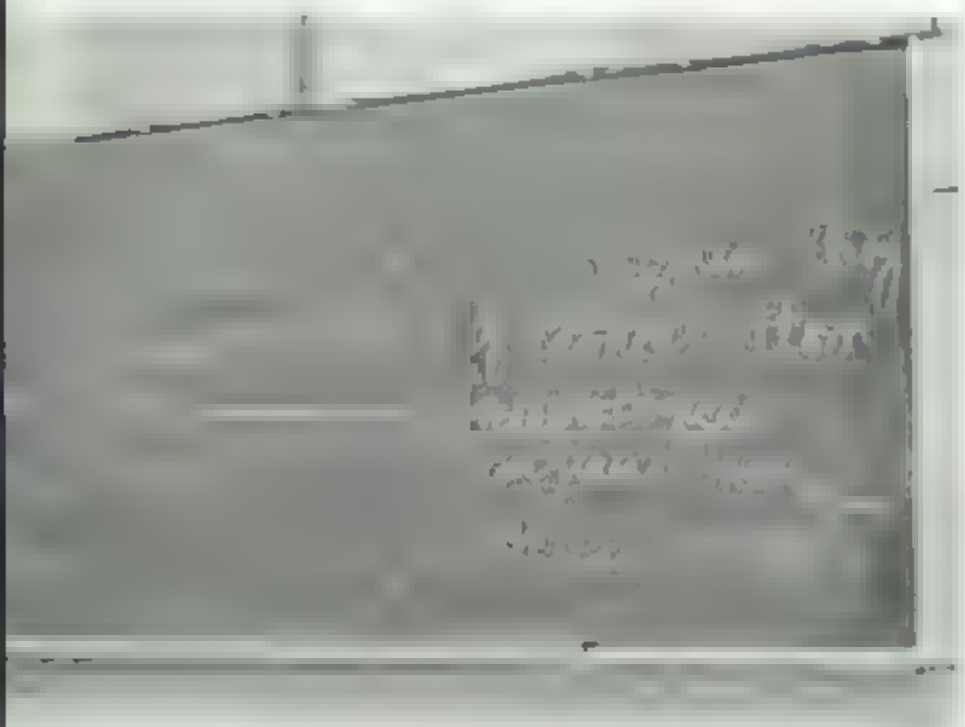

On the first day of physics

Seems like the freshmen look younger and younger every year

What's the matter boys. You look a little green around the gills

Could Oakwood be producing another Einstein?

I wonder what the O'study is for?

Hey Tim. What's that on your neck?

Mother always told me "Study hard, pay attention, and be good." But mother never told me about male high school teachers.

You need an elevator pass to get to the third floor

And from the monkey evolved

From a Cow's eye view

Being on your own is a hell a great way of learning

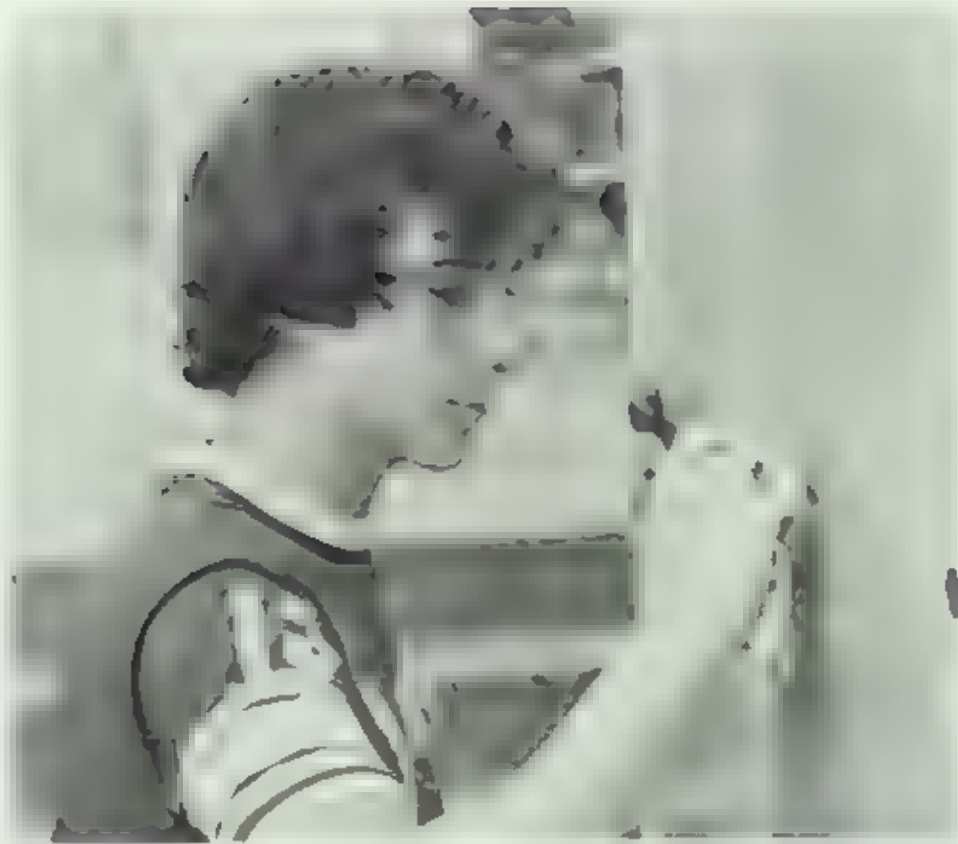

Honest Coach was home studying last night

Miss Librarian has the Dr. Seuss series come in yet?

No one can be that high!

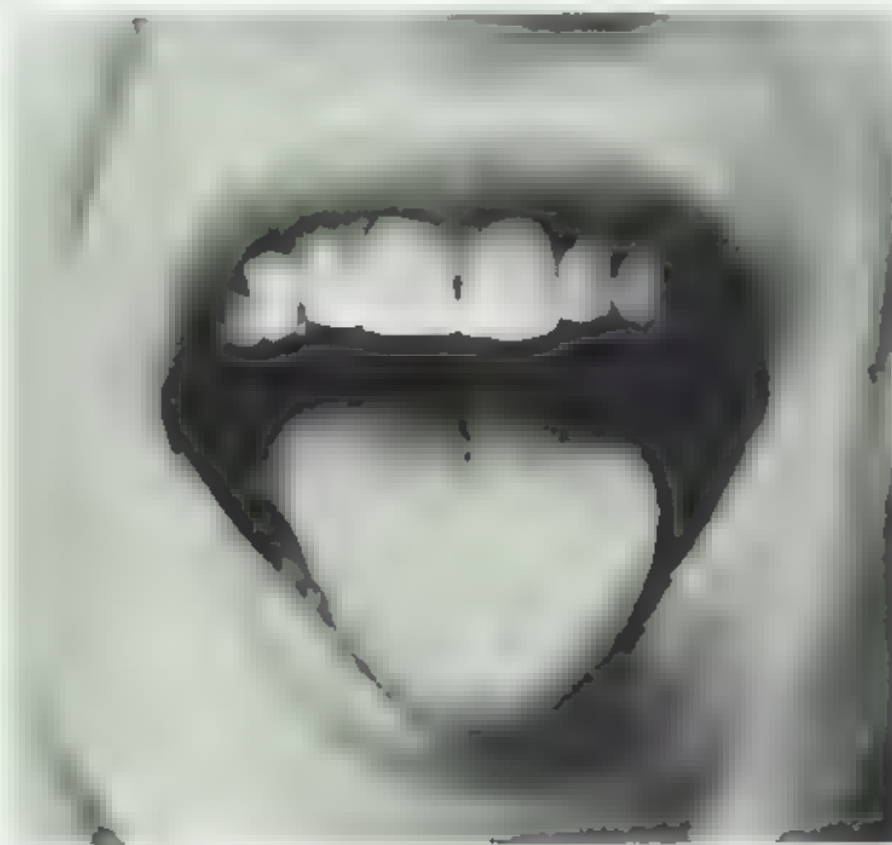

My vocal and training proved to be quite helpful

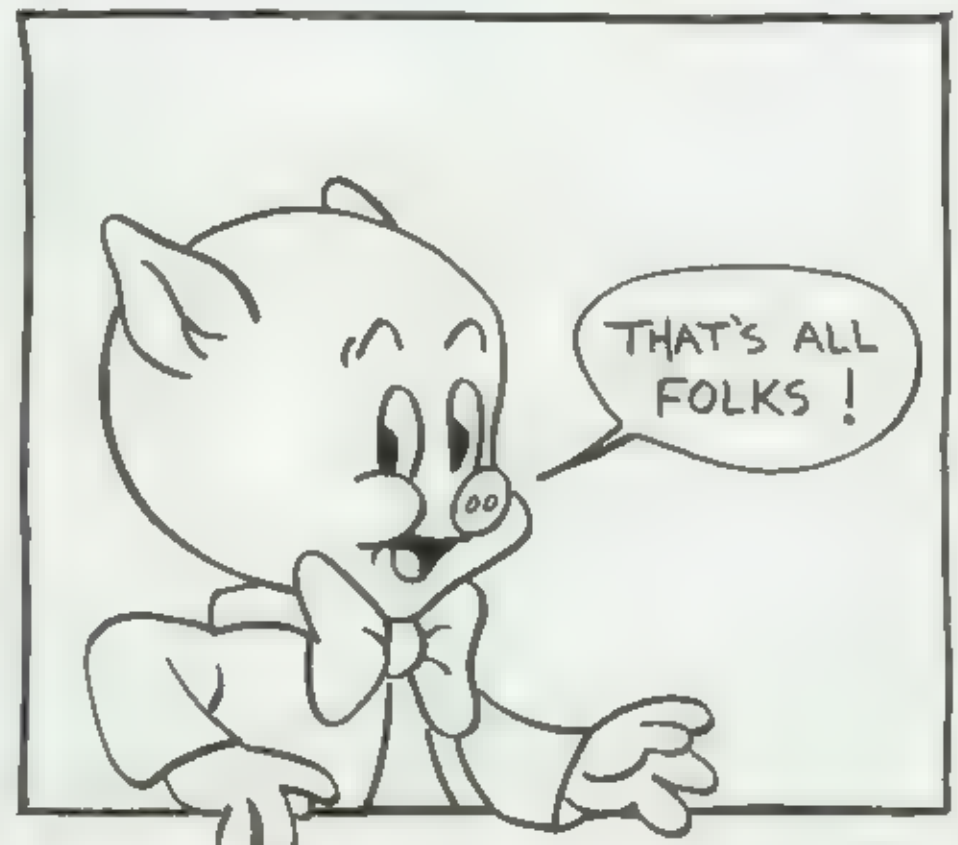

You put your head in and you shake it all about

We're O.K. the rest of the world's upside down

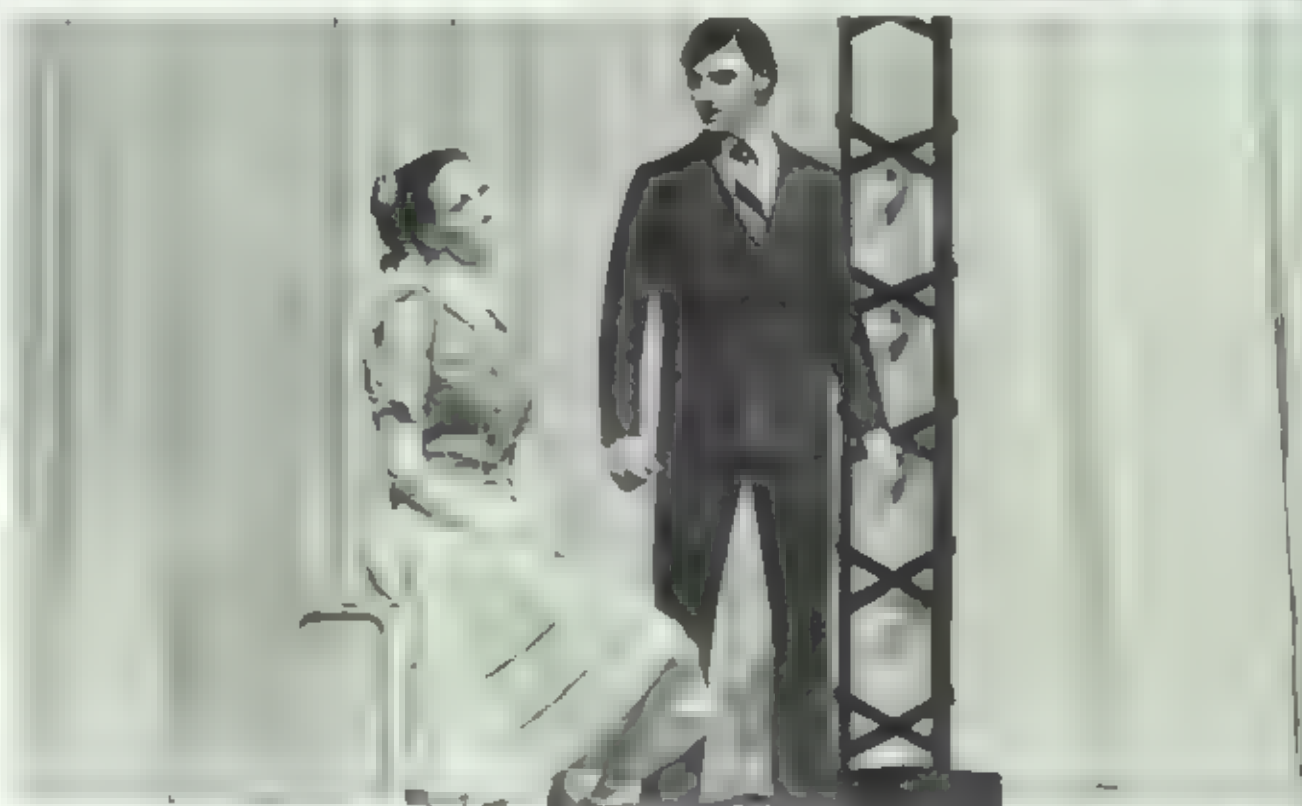

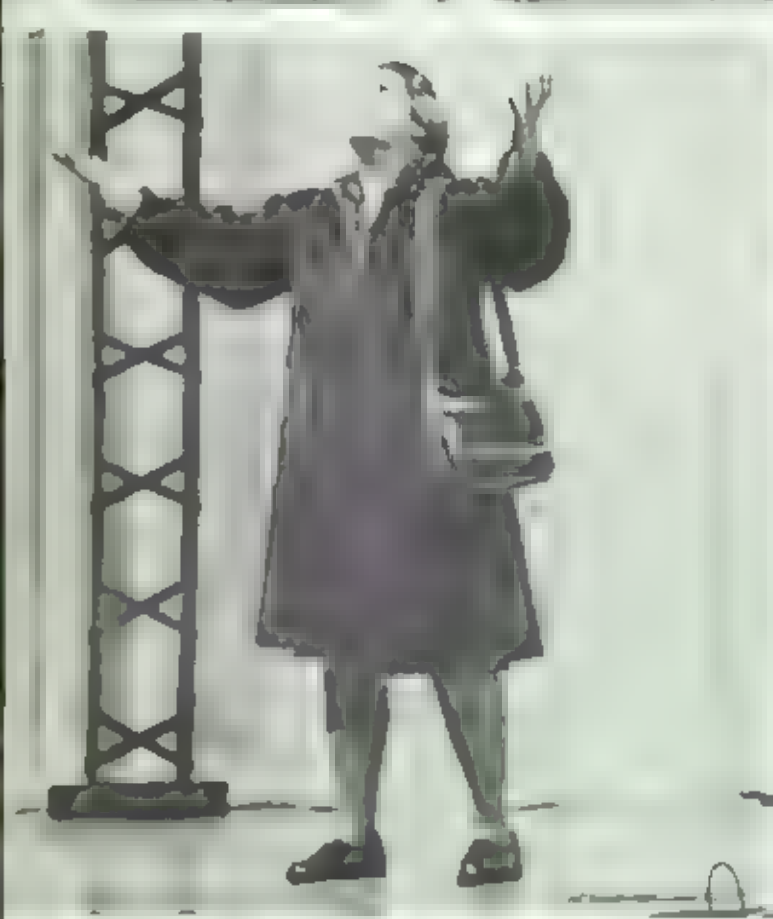

Yea Oakwood!
